SUMMARY

Motivated Computer Science Engineering graduate with hands-on experience in frontend and backend development using **HTML**, **CSS**, **JavaScript**, **React.js**, **Java**, **Spring Boot**, and **MySQL**. Developed academic projects that involved designing responsive user interfaces, building **REST APIs**, and integrating databases. Quick learner with strong analytical and problem-solving skills, seeking an entry-level role or internship to gain practical industry exposure and enhance full-stack development expertise.

PROJECTS

Online Quiz Application

- Developed a responsive Course Registration System using **JavaScript**, **HTML**, and **CSS**, streamlining student enrollment and course management processes.
- Engineered a database schema for course allocation and student tracking, improving data organization and retrieval efficiency.
- Implemented validation logic to prevent duplicate registrations, enhancing data accuracy and reducing administrative errors.

E-Commerce Rest API

- Developed an online shopping platform with product catalog, cart system, and secure login.
- Designed and managed **Spring Boot** and **MySQL** database for users and product data.
- Implemented **CRUD** operations and session management.

Course Registration System

- Developed a Course Registration System using **JavaScript**, **HTML**, and **CSS** for students to register, update, and manage courses.
- Designed a database schema for course allocation and student tracking, improving data organization and retrieval.
- Implemented validation mechanisms to prevent duplicate registrations and ensure data accuracy.

Employee Management System

- Built a full-stack Employee Management System using **React**, **Java**, **Spring Boot**, and **MySQL**, streamlining employee record management and automating administrative tasks.
- Implemented robust data validation and optimized record handling, improving data accuracy and consistency across the system.
- Designed a structured database schema, reducing manual data entry errors and enhancing overall operational efficiency.

EDUCATION

BE CSE

OASYS Institute of Technology

08/2019 - 05/2023 Trichy, India

HSC

Government Higher Secondary School

06/2018 - 05/2019 Thanjavur(PKT), India

SKILLS

Frontend

HTML **CSS** **JavaScript** **ReactJS**

Backend

Java **Spring boot** **MySQL**

Tools

VS Studio **IntelliJ IDEA**

Concepts

OOPS **Data Structures** **Java 8**

RESTful APIs **Stream API**

Language

Tamil **English**
